

## The Village Plan

In 2008 a group of residents, led the village public consultation process which resulted in production of the 2009-2013 Village Plan, which every household received. Since then it has been used by our Parish Councils and other groups as a guide to develop our village in line with the resident's priorities with not only some outstanding successes such as the provision of the new Cricket Pavilion and the redeveloped Community Centre, but other more mundane but equally important activities such as sorting out car parking at the post office.

Time has moved on and earlier this summer all residents were invited to an open meeting to set up a new group to review the village plan; a group has formed and have started work to develop a new plan and taken 3 actions:-

1. The group will be called the **Village Plan Group**
2. It's purpose will be **To Review, Update and Reissue the village plan**
3. As there are still many items outstanding and unaddressed the group has decided to readopt the plan (as it was out of date) until **a new community consultation process which is about to begin** has been completed.

Some of you will have lost or misplaced the Village plan, others will have forgotten all about it.

It can be viewed on line at <http://villageplan.monkfryston.org/>

The Village Plan Group will:-

1. Review the priorities and actions and update the plan as it stood in 2009.
2. Make the full review and updated plan available on line – we will inform everyone of the web address.
3. Remind everyone via Hllam News or/and MF Parish Council Quarterly newsletter of the priorities and action points and with a request to submit your views –
  - a. **Are the remaining outstanding actions important?**
  - b. **Are there any other actions/identified needs which you believe should be noted**
  - c. **Are there any other village needs you wish to inform us about.**
  - d. **Are the priorities which were set in 2009 still valid or should they be changed?**
4. Let everyone know how you can tell us what you believe needs to be done and your views and opinions on outstanding matters.

**Please review the Village plan and start thinking**

**Your views are very important so please let us have them.**
