28 April 2016

Dear Parent/Guardian

HOME TO SCHOOL TRANSPORT: RENEWAL OF SELBY AREA SERVICES

The Council's Integrated Passenger Transport Team is responsible for arranging home to school and public transport services throughout the county.

We have an established programme to review contracts for transport services and they are renewed by tender through a four year rolling programme. I am writing to let you know that a contract renewal programme is being undertaken in your area during 2016 for implementation in April 2017. All taxi and bus routes will be renewed and new contracts implemented as necessary.

Route scheduling is now underway and I am writing to advise that this may mean a change to operator, route and timings of your transport from April 2017. We are hoping to minimise change as much as possible but where we propose a significant change to a service we will notify you separately.

Should you wish to make any comments concerning the renewal of contracts please go to www.nyschoolbus.info and complete the School Transport Feedback form.

Yours Sincerely

Nicky Moseley
School Transport Officer
