

# The Golden Book

**Date: 30th November 2018**

## **Reception**

### **Year 1**

#### **Max Jamieson**

Wow Max, what a great term you have had! We love how you work hard and play hard, every day. You love building and creating things, but you are also a superstar with your learning too. Your smile cheers everyone up, and you are such a good friend to others. Keep being you!

#### **William Lyth**

Is there is nothing that William can't make out of a box and some sellotape? He is always full of great ideas, and is so creative and imaginative. We love how he is also mature enough to work with others on big projects; sharing ideas and working as a team. We are looking forward to seeing what William comes up with in our new topics next term. A fantastic term William, well done.

#### **Imogen Taylor**

Well done Imogen for being such a superstar in year one, all term. You always try your best, especially with your writing. We love how you listen carefully to any advice, and will do that little bit extra to make your work special and exciting. Keep aiming high!

### **Year 2**

#### **Florence Hall**

Florence always gives things go! Even if she's unsure, she will have a try anyway. Florence was away at the start of this week, but as soon as she came back into school she threw herself into her learning and it was as if she'd never been away! Well done.

#### **Noah Fox**

Noah has been making a big effort this week to make excellent choices! He has been joining in on the carpet, and remembering to put his hand up every time. We are pleased to see him making an effort to follow instructions! Keep aiming high, Noah!

## Year 3

### Finnley Bedford

Finnley, you are certainly looking up and aiming high!

You have been demonstrating a fantastic attitude towards your learning. You are working incredibly hard across all areas of the curriculum and particularly in Maths where you continue to challenge yourself to move onto three star activities. You ask questions when you need support and you continue to listen carefully to instructions- in turn this allows you to make excellent progress within lessons. Well done!

### Isla Johnson

Isla you have been a Maths whizz again this week! You approach your work with fantastic determination to tackle challenges and this enables you to get to grips with new concepts quickly. You have especially impressed us with your ability to clearly explain your working to the class during problem solving and calculation work. You are always present and ready to learn with a positive attitude and wonderful smile! Just fabulous - keep aiming high!

## Year 4

### Max Davies

This week, you have shown great focus and resilience in your learning, Max - tackling everything in a calm manner and not letting anything or anyone distract you. You have been asked to work with lots of different people, yet haven't let this overwhelm you. What a super job! Keep up the great work!

### Patrick Johnston

Patrick, it was fantastic to hear you sharing your Iron Man descriptive writing with the class this week. Not only had you listened carefully, but you made careful vocabulary choices to really bring your description to life. You set a fantastic example to others in the way you focus and get on with tasks quickly and quietly. What a fabulous attitude to choose!

## Year 5

### Annie Crick

Thank you for being reliable, Annie - in every single thing you do. You have shown us this week how kind, caring and considerate you are towards others. You often put others before yourself and this hasn't gone unnoticed. We are so lucky to have such a helpful, supportive member of our class. Not only this, you give everything you do 100% effort and make the most of each and every learning opportunity. You even did extra at home, this week, on sharing the importance of a positive mindset which is a really useful poster to have in class as a reminder to us all. You certainly choose you the correct attitude, everyday. So thank you, Annie.

### Charlie Dawson

What a fabulous week you've had, Charlie! You have shown excellent stamina in Maths when we learnt about short multiplication, you created a wonderful character profile in English and have just been ready to learn, first time, every lesson. You also can be relied upon to get the best from every learning opportunity. You are a great friend to everyone; with a gentle manner and a kind, respectful approach towards others. You make our day, everyday.

## Year 6

### **Talia Kanaa, Lily Kearton and Matthew Saunders**

**Talia** – thank you for always being such a ray of sunshine in our class. Every morning, you come into school with a smile on your face, ready for the day ahead. You know why you come to school – and you make sure you get the most out of every activity. You work hard on all tasks and are a great learning partner. We are impressed with the work you have produced in science this week. You have shown your deep understanding of classification and micro-organisms. We would also like to say how super-thrilled we were with your French last week – especially when you wrote your end-of-day reflection in French too! Très bon!!

**Lily** – you too work your hardest every single day and are a joy to have in the classroom. You listen well to input and work well, both independently and in a group. You have worked hard on your rainforest story, focusing on the success criteria and editing well. In maths this week, you have focused well on our shape unit. You have made great progress in your understanding of 2D and 3D shapes and can use the vocabulary of shape with more confidence. Well done, Lily – keep it up.

**Matthew** – you are such an enthusiastic member of our class. We can rely on you to participate in all class discussions and have a go at anything. You too have produced some great written work this week. You have used the KS2 objectives to enhance your writing and your science poster shows an excellent grasp of our Living Things unit. You also made some valuable contributions in our PSHE lesson, where we learnt about staying safe online. You are a great friend to everyone, Matt and we love having you in Year 6. Don't change.
